Can Universal Design for Learning Promote Assessment Fairness & Equity?

WEBINAR 1  |  JULY 27, 2021  |  2 - 4 PM (EST)

Join us for the first installment of the webinar series presented by the UDL-IRN Assessment and Measurement SIG. Our panelists will discuss opportunities and challenges at the intersection of Universal Design for Learning and assessment. They will grapple with questions such as:

- What does UDL offer for improving assessment fairness and equity?
- Are there validity trade-offs in creating assessments that truly leverage UDL principles?
- How can the measurement, instruction, and UDL research communities work together to create instruments that meet the needs of a broad range of education stakeholders, including students?

Kristen Huff  
Vice President of Assessment and Research, Curriculum Associates

Jennifer Randall  
Associate Professor in the Research, Educational Measurement, and Psychometrics program at the University of Massachusetts

Michael Rodriguez  
Associate Dean and Professor, Educational Psychology College of Education & Human Development, University of Minnesota
